**MERN Stack Developer** - [mdarifur554@gmail.com](mailto:mdarifur554@gmail.com) | [GitHub](#) | [Facebook](#) | [LinkedIn](#)

## Summery

I'm a MERN stack developer with expertise in MongoDB, Express.js, React.js, and Node.js. My goal is to build powerful and user-friendly web applications. I pay close attention to detail and strive for clean, maintainable code. I excel in collaborating with teams and transforming client requirements into scalable solutions. I stay updated with the latest technologies and use agile methodologies to continuously improve existing systems. My aim is to create innovative solutions that drive user engagement and business growth.

## Skills & Technology

**Experts:** JavaScript, ES6, React JS, React Router, Bootstrap, HTML, CSS, Tailwind CSS,

**Comfortable:** Express JS, Rest API, Context API, JWT, Axios, Tanstack Query, Firebase

**Familiar:** MongoDB, Node JS **Tools:** Visual Studio, GitHub, Chrome Dev Tools, Netlify, Vercel

## Project

### 1. Arif's Martial Art House

[Live Link](#) || [GitHub](#)  [Client](#) || [Server](#)

1. Dashboard Implement with three different panel such as admin, user, instructor.
2. Users should be able to filter classes based on their level, style, or instructor, and easily register for the classes they are interested in.
3. Here admin can monitor everything in the website. He can make user admin and instructor. He can control instructor add class etc.

**Technologies:** React Js | Express Js | MongoDB | Node Js | Tailwind CSS | React Router Dom  
| Tanstack query | Firebase | HTML | Vanila CSS | React Awesome component

### 2. Gamzone Toy Shop

[Live Link](#) || [GitHub](#)  [Client](#) || [Server](#)

1. User can easily add toy for shopping, update and delete his/her selected item.
2. All toys are divided into three categories so user can easily select their selected item.
3. Can view his/her selected item full details.

**Technologies:** React Js | Express Js | MongoDB | Node Js | Tailwind CSS | React Router Dom |  
Firebase | HTML | Vanila CSS | React Awesome component | AOS

### 3. Foodian Chef And Food

[Live Link](#) || [GitHub](#)  [Client](#) || [Server](#)

1. In this website a user can select his/her favorite chef and favorite food item.
2. Here I add an extra section of advertisement related marketing poster.
3. Before see an individual chef, details user must authenticate his/her by Gamil, GitHub etc.

**Technologies:** React Js | Express Js | Node Js | Tailwind CSS | React Router | Firebase | HTML | CSS

## Education

B.SC in CSE	2021-Present	Green University Bangladesh
-------------	--------------	-----------------------------

## Language

Bangla(native), English(basic), Hindi(intermediate)
